

Iconify - Library Notes

Prepared 2026-10-22. Public sources only. Source: <https://iconify.design>

License

Iconify framework/tools: MIT (OFFICIAL, <https://github.com/iconify/iconify/blob/main/license.txt>). IMPORTANT: each icon set in Iconify keeps its own license (e.g. MIT, Apache-2.0, CC BY 4.0, OFL) - check the set license at <https://icon-sets.iconify.design> before use; attribution may be required for CC BY sets.

Overview

Unified framework/API aggregating 100+ open-source icon sets (Material Symbols, Lucide, Phosphor, Tabler, etc.) via one API/component; on-demand loading. Exact set/icon counts NOT VERIFIED this run.

UX notes / lessons (our analysis)

Great for exploration and prototyping; for production, pin a small number of sets for visual consistency and track per-set licenses.

Figures (screenshots & renders)

Iconify API - 'home' icon from 12 sets (each set keeps its own license)

Figure 1. 'home' icon from 12 icon sets via the Iconify API (licenses labelled per set). *Source: RENDERED BY US from <https://api.iconify.design> SVGs; each set keeps its own license - all shown are MIT/ISC/Apache-2.0 (no attribution-only CC BY sets used)*
